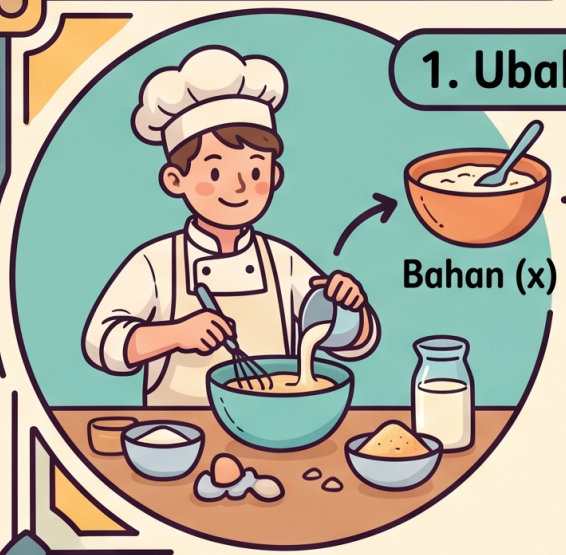
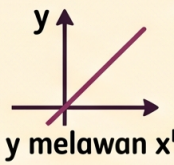
1. Ubahan Langsung



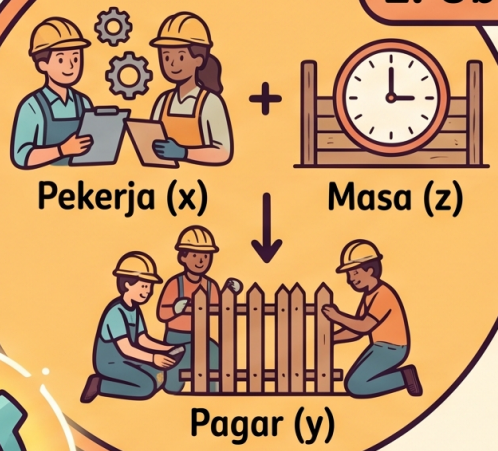
Bahan (x) → Kek (y)



$y = kx^n$

$y \propto x^n \quad k = \frac{y}{x^n}$

2. Ubahan Tercantum

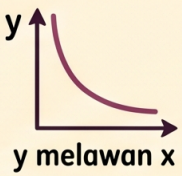


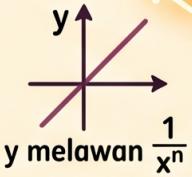
$y \propto x^m z^n$

$y = k x^m z^n$

$k =$	$\frac{y}{x^m z^n}$

3. Ubahan Songsang



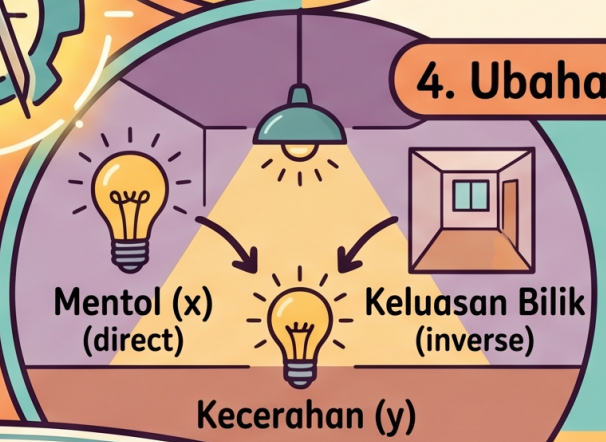


$y \propto \frac{1}{x^n}$

$y = \frac{k}{x^n} \quad y \propto \frac{1}{x^n}$

$k = yx^n$

4. Ubahan Bergabung



$y \propto \frac{\text{Mentol}}{\text{Keluasan Bilik}}$

$y = k\frac{x^m}{z^n}$

$y \propto \frac{x^m}{z^n} \quad k = \frac{yz^n}{x^m}$

MATEMATIK KSSM TINGKATAN 5 – BAB: UBAHAN
